

Appendix 1 Alternative assessment overview covid-19 block C

version 8 July 2020

1920-C	Assessment	NEW WEEK	Changed to new assessment form	Why was this decision taken?	Approved by
WEEK C7					
Tuesday 24-03-2020	EDMO-18 Final Assignment OPS 1	Cancelled	Decision was made NOT to offer OPS 1 for students registered for block C.	The learning goals of OPS 1 and OPS 2 overlap, so all learning goals are covered in the OPS 2 assessment at a higher level of Blooms Taxonomy.	BMT, exam + assessment committee
WEEK C9					
Tuesday 07-04-2020	ICHI-10 Final Assignment	Cancelled	Decision was made to cancel the written, individual CHI assessment for the students registered for block C	The learning goals of CHI are already tested in the other two assessments in the course (although these are team assessments). Learning goals of the written assessments are tested in other courses in year 1. CHI is an introduction course and in these COVID circumstances we feel that we could stick to the team assessment part.	BMT, exam + assessment committee
Thursday 09-04-2020	HREI-14 Final Assignment	Cancelled	Decision was made NOT to offer the final assignment for students registered for block D and for re-sit students	The learning goals of HREI are tested in the team assignment within HREI. In the team assignment learning goals are tested at higher levels of Blooms taxonomy. The individual written assignment test knowledge at the lower levels of Bloom. Within HREI, students work in really small teams (3 students) so free riding is difficult in this course. This is an elective course of 3 EC, that did NOT meet the current assessment policy where only 1 summative assessment is allowed per 3 ECs.	BMT, exam + assessment committee
